

## **A TIME OF CHANGE AND REBALANCING**

by Kent & Renee Miller

Deep inside, we knew the freezing cold in Texas was more than just a once-in-a-generation event. *It felt different.* Our guides had been busy, and we had to be patient for answers. The communication, like a blinking light, left only glimpses of what was taking place until we could finally piece together the images to form a more complete picture, adding to the information we had been given years ago of changes to come. Our current recollection served only as a distant memory. We searched for answers within the previous readings.

Yes, we had been told of coming Earth changes. The rise in volcanic activity and earthquakes. That Earth would have to rebalance from thousands of years of a drifting axis from the weight of the icy poles. The corrected wobble would result in displacement of ocean waters. We understood that the orbits of all universal bodies would have to readjust after millennia of changes to return balance throughout the universe. We were told of a more tropical planet before she turned cold, but that technology would be in place when that came. Yes, Earth's vibration was shifting upward. We had been informed of the need for food stores, seed and water. And clothes. We were taught that we have been in a materialistic period of time, and that *'it's not what you want, it's what you need.'*

But there was *new* information that was coming through, and we were trying to piece it together. New words, like 'renumeration' and 'a new nomenclature.' What were they talking about? And did it fit into these wild weather changes?

The Transformation is bringing change to all aspects of life here on Earth, throughout the galaxy and universe. From the Bible, *the word* is the nomenclature that the Creator uses to bring about change. It is the mathematical sequences and vibrational instructions traveling through space, interfacing and interacting with all matter to bring about a transformation. It is a reassignment of the mathematical codes in which all life is determined, pushing all matter to a more sophisticated expression for the entrance of this new Aquarian cycle. It is the rebalancing and upgrading of all things from our spiritual self and the subatomic structure of our bodies to that of our Mother Earth and beyond.

In addition to rebalancing and transforming, Earth is also going through a cleansing. We have mined her vital energy, uranium, and the gold and silver that have given structural integrity to her skin. The rare iridium we have taken has depleted the stabilization of her electromagnetic field. Our generation of noise and

high-power radio frequency transmitters have altered the ionosphere, changing weather patterns. We have polluted her lands and her water with chemicals of every kind, from pharmaceuticals to plastics and all those used in our attempts to control nature. You see, carbon is the least of our problems. At least it is natural. We have done far more damage that has not yet come into our field of view.

In the words of our guides, “Purgorious is the true nature of the events to take place. Prepare yourself for the amplification of your surroundings ... Normalcy is changing.” In Latin, “purg” means to cleanse. To amplify means to make larger, greater, stronger. We are at the beginning of Earth’s cleansing. Events happening in our surroundings worldwide will become stronger and greater. What we knew as normal will no longer be until our Mother has been cleansed and made pure again.

In another reading, “Preverbious institutional changes. Normalcy is changing. Cautionary behavior of the lands. Movement will take place within two years, your time. Cautionary function will be yours to decide.” In Latin, “pre” means before, and “verb” means a word. We are in a pre-manifestation phase, where God’s vibrational, mathematic nomenclature, the word, is instituting and organizing the changes to come. We are being given a warning of the changing behavior of the lands and the active progress of those events that are to take place over the course of the next two Earth years. Now that we are made aware of the changes upon us, it is up to us to decide the proper actions necessary to prepare for those events.

So, as we rise out of the frigid cold, with broken pipes, lack of water, empty grocery shelves and unfortunate loss of life, we are facing the uncertainty that life brings with a changing world, looking for ways to ensure our safety in the future.

Our Mother is cleansing and rebalancing, preparing a New World that is purer and more sophisticated, preparing our surroundings for a wonderful new cycle. It is up to us to accept, allow, and prepare for these changes, then align to her beautiful new vibration.

## **Kent & Renee Miller Bio**

Kent Miller unexpectedly discovered that he was able to telepathically communicate with the Ancients, ancient teachers of the Creator, and professors. Kent and wife, Renee, have compiled these lessons into The Augmentation of Man book series: [\*\*A Study in Renaissance\*\*](#) and [\*\*Acquiescence of Humanity\*\*](#), available on Amazon. [\*\*Verdiance.com\*\*](#).
