Let's Eliminate the Coronavirus Now!

By Kathleen Kuffner

"Coronavirus Wakeup Call – Free Scalar Light Treatments Eradicate the Coronavirus – Register to Receive 30-Days Free Scalar Light Treatments"

In response to the novel coronavirus, the Scalar Light Pathogenic Cleanse is able to disassemble, or fragment the single strand RNA of the coronavirus, thereby destroying the life form of this microbe. Once the RNA of the coronavirus has been disassembled the infectious agent ceases to exist and no longer poses a threat to human health. ~ Tom Paladino

Regarding the coronavirus, a tremendous amount of fear porn, hyperbole and mainstream propaganda is pushing the worst case scenario of a virus

epidemic occurring right now - it's definitely time to share some sobering good news with you. We have an opportunity to know true wellness with Scalar Light Healing, please take advantage of the newly offered 30-day free trial to receive scalar light treatments that eliminate all known microbes, including the novel coronavirus.

We have nothing to fear, please do not be afraid or discouraged. Instead, be brave, and be strong, for we are indeed fighting a mighty spiritual battle on planet Earth right now. We must keep wearing the armour of God, and we must keep maintaining strong vessels of light. We are talking about a microbe here, not a gigantic, fire-breathing, scaly dragon with knives (a mythical depiction nonetheless). Read on.

*"In my series on the China epidemic, I've pointed out that **pneumonia** - the key indicator of the "coronavirus" - it can be caused by many other factors: other microbes, fungi, toxic pollution, etc. ... and historically, pneumonia has been a major disease in China. Long before the emergence of the new human coronavirus, people in China have been dying of pneumonia at the rate of about 300,000 a year. Now those people, passing away from the disease in 2020, can be falsely called "deadly epidemic cases. How convenient." Since Chinese authorities no longer require direct testing for the coronavirus. Instead, CT scans of the chest are employed. If these scans show signs of pneumonia, the 'coronavirus epidemic' label is absurdly applied to the patient." ~ Jon Rappoport, American Journalist*

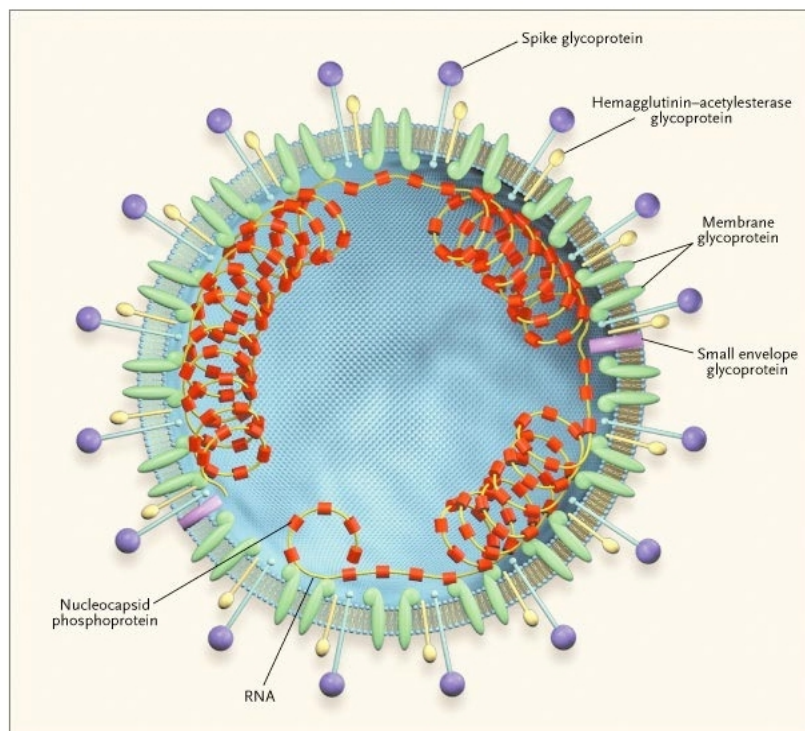

Yes, the coronavirus may well be a real wakeup call to humanity, and in this article, I will show you how we will prove to be victorious against any attack of this microbe.

Human beings are a powerful and benevolent species. The more light we take in - the more powerful and knowing we become - and here are 2 dynamic suggestions to prevent outside invaders (microbes) from attacking our light vessels. 1. Begin in earnest a natural health regimen; and 2. Sign up immediately for the 30-day free trial of Scalar Light healing treatments at WWW.FREESCALAR.NET. This opportunity for 30-days free has never been offered before, in the past, only 15-day free trials were offered. The inventor of Scalar Light Technology, Tom Paladino, is very concerned for humanity regarding the coronavirus outbreak, and he wants to be able to treat as many people as possible during this purported epidemic. Tom believes preventing any further outbreak of this virus is critical right now. In

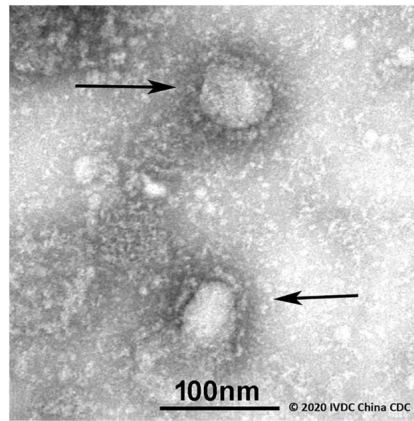

response to the virus outbreak in China, Tom is now offering 30-days of free scalar light treatments that can eliminate and completely destroy COVID19, also known as the coronavirus.

Please see the facts regarding the coronavirus below:

"In December, 2019, a new viral disease was detected in Wuhan, China (a well-known area of extreme pollution and highly toxic air quality;) it has since been classified as novel (new) coronavirus, or COVID 19. The spread of the novel coronavirus throughout China, and now throughout Asia, has now served to raise many questions and concerns regarding the nature of this infection and the subsequent treatment for this viral disease.

In practice, magnified, electron photographs of the coronavirus are used in conjunction with the scalar light instruments to disassemble the coronavirus. These magnified electron photographs are scanned or interpreted by the scalar light instruments thereby providing the informational input or instructions necessary to disassemble the RNA of the coronavirus. Succinctly, a magnified electron photograph of the coronavirus serves to instruct the coronavirus to disassemble or fragment. Scalar Light Healing has secured a number of magnified electron photographs of the coronavirus thereby assuring the destruction of this new and emerging pathogen.

A MAGNIFIED, ELECTRON PHOTOGRAPH OF THE NOVEL CORONAVIRUS SERVES AS THE TARGET FOR INSTRUCTIONS FROM A SCALAR LIGHT INSTRUMENT TO DISASSEMBLE AND FRAGMENT THE RNA OF THE INFECTIOUS AGENT. →

The novel coronavirus is capable of being transmitted from person-to-person. Precaution must be exercised as the virus is currently spreading throughout Asia and starting to be detected in other countries. Below are facts and information provided by the CDC in reference to the coronavirus:

- 1) The symptoms of the coronavirus are: high fever, nausea, cough, vomiting, diarrhea, impaired kidney and liver function, pneumonia and shortness of breath.
- 2) People do not possess antibodies to fight against the coronavirus. Typically, new and emerging viruses have never been encountered by the immune system and thus there are no existing antibodies to defend against the novel coronavirus.
- 3) Currently, there are no vaccines to elicit an immune response to the coronavirus.
- 4) Currently, there is no anti-viral drug designed specifically to fight against the coronavirus.
- 5) The viral incubation period for the coronavirus is between 2 - 14 days. During this incubation period there is an absence of symptoms in which human-to-human transmission can take place unknowingly without the exercise of precautionary measures.

6) The Ro number or reproductive number is a mathematical value that indicates how contagious an infectious disease is within the general population.

The New England Journal of Health has assigned a Ro value of 2.2 for the Wuhan coronavirus. Thus, on average, a person infected with the novel coronavirus will infect 2.2 other people. In comparison, typically, the common influenza virus exhibits a Ro value between 1.2 - 1.5. The Ro value is not a biological constant for a pathogen as hygienic standards, environmental factors, the level of response to the spread of a pathogenic disease, age, genetic predisposition, population density, etc. all serve to factor into the Ro value determination.

As we stay informed to the spread of the novel coronavirus, the opportunity to receive 30-days of free scalar light treatments is an excellent precautionary measure to avoid further contamination. Please take advantage of this offer – visit WWW.FREESCALAR.NET and may God grant you excellent health.

"The Scalar Light Pathogenic Cleanse will serve to disassemble and eradicate this novel virus. I am concerned regarding the spread of this virus. To that end, scalar light will prove to be the answer to this epidemic."

~ Thomas J. Paladino
